Sir!

I call your attention -concerning Hungary's affair -to the following facts:

1./The Hungarian government issued an order by which he declares all the refugees of the freedom-fight of 1956 to be legally dead.Consequently their relatives, living in Hungary inherit all their fortune.

By this inhuman fiction of law the Hungarian government will achieve the following purposes:

2./To force the refugees to return home.

3./ To confiscate concealedly their fortune, while the Hungarian government insinuates, that now does not take place confiscation, only inheritance. But the wife and children of the refugees (living with him, abroad) are deprived from their inheritance and instead of them the perfidious relatives inherit all.

4./To create a lash of interests between the refugee and his relatives -living in Hungary-. These, in possession of the fortune of the refugee in the future - willy-nilly - will assist the communist regime.

It is desirable, that the UN. declare, that this order violates the constitution of UN.

Therefore the UN. invites their member-states to compensate the refugees Hungarian (from 1956) living in their country. Or itself the UN. compensates them, by its financial organisation.

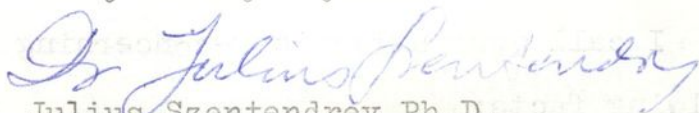

/.

The compensators acquire a right of pledge upon the accounts receivables(actives) of Hungary and Sovietunion,which they have in the territory of the compensator.

Excuse Sir for my proposition and for my bad English.Your action is our hope.

In name of more Hungarian refugees,

very truly yours
