Do you think that a list of communications received by Sir Leslie Munro and/or addressed to the United Nations General Assembly and Secretariat should be compiled and forwarded to Mr. Shastri for inclusion in the Assembly list?

As the Hungarian question is not on the agenda, it would require a memorandum on your part requesting such inclusion.

Maybe one possible solution would be the inclusion of the list of communications received as an appendix to Sir Leslie's report.

I do not think a list is necessary. Ask Mr. Shastri
