Gentlemen:

I wish you would try to save the one-hundred fifty Hungarian children awaiting execution for fighting against the Soviet Union. I know that if I were going to be executed and the United Nations saved me I would be very grateful to it and all the countries belonging to it.

These children were only doing what anyone else would do for his country.

It seems that no one has tried to save them, so we are asking you to try. Please help them.

Thank you,

Gentlemen:

I am only one of the many students in "Bryant Junior High School". We have heard about the terrible thing Mr. Khrushchev is doing - hanging those 150 children. I am sure children of Russia would have done the same thing if in war. So I am asking you if you would at least give it some consideration. Maybe you can make him reconsider. Thank You.

Gentlemen:

I am writing you this letter because I heard that some children from Hungary would be hanged at the age of eighteen. I know that they will be hanged because they were fighting against the Communist Party in the war. If your country were at war, wouldn't you fight even though you knew you might be killed? I know I would. But why should we or they be killed? I know if I were about to die I would want someone to help me.

Dear Gentlemen,

Dear people in the United States would appreciate it if you would let the Hungarians go. I know how you feel about it, but you should think how the children feel.

If you let the children have a chance to prove themselves worthy of living, I am sure they will be proved worthy.

The children did not know what they were doing. They were only trying to win their own freedom.

I don't think you are being fair with the Hungarians. I don't think you care what happens to them. If you have a heart at all you had better let your conscience be your guide.

Dear Gentlemen:

I am a seventh grader at Bryant Jr. High School. We were discussing the 150 children that will starve when they reach 18. I am referring to the children in Russia. We have already written to Russia, but they aren't doing anything about it, so we decided to write to you. And this is my reason and what I think. It says in the Bible that all men are created equal. I was sort of our fault that those children were captured. If we hadnt been too scared to do anything, we could have sent planes and men to help. So we should try and help free them. But Russia has no right to keep the children. Hungary and Russia were not at war, but when Russia left their soldiers there they decided to hog it all. Hungary was defenseless. It wasn't fair.

They weren't even ready. And the kids
were just defending themselves. It's just
not fair. We are part to blame so please
try and do something for them.

Yours Very Truly
Ann Jenkins

If you please, would do something to stop Mr. Khrushchev from having those children die at the age of eighteen.

To me it isn't our affair, but I just don't like the idea of their being killed off like that.

All I am asking is that you stop Mr. Khrushchev from letting them be hanged, for protecting their country and love ones.
