Red Deer, Alberta,
Canada.
November 9, 1959.

United Nations General Assembly,
United Nations, New York,
New York.

Dear Sirs:

The United Nations Club of our school has become much interested in the one hundred and fifty Hungarian prisoners who, it has been reported, are to be hung for participating in the Hungarian Revolution of 1956. Although we acknowledge the fact that this would be termed a domestic affair, we very much wish that this affair could be discussed in the General Assembly. A petition to that effect, which is enclosed, has been circulated in our school and was signed by most of our students.

Since we, as well as everyone in the free world dread the thought of such mass murder, we turn to the United Nations in hopes that this organization will exercise its influence in trying to prevent this tragedy.

Thank you.

Yours truly,

Carol Anne Sheppard.
