NAMES FOR BLACKLIST.

SOURCE STOCKHOLM: Confidential source.

DATE OF OBSERVATION: Current period.

EVALUATION COMMENT: According to STOCKHOLM RFE Item No. 3523/55 LAPA (fnu), a Communist, is quite willing but not efficient because of the lack of experience. This report says that he is considered to be quite efficient. Now, we do not know whether he is efficient or not. Again, the above STOCKHOLM Item stated that LAPA was appointed Chief, Personnel Department, PZM, SZCZECIN (szef personalny) sometime at the end of January 1955. Now we learn that it is GAWRYSIAK (fnu) who keeps the latter position. This is the first time that we hear about GAWRYSIAK. We wonder whether people do not mix up the two men and their positions: "kierownik załogowy" with "szef personalny." We prefer to leave all these questions open until we obtain a sound explanation from a source well acquainted with the problem.

\* \* \*

It has been reported to us that LAPA (fnu) is the administrator of the crews (Kierownik Załogowy) in the PZM (Polska Żegluga Morska) in SZCZECIN, though it has been rumored that he will soon be relieved. This has caused some surprise because he was considered to be quite efficient.

The personnel chief (szef personalny) is GAWRYSIAK (fnu). Both have double salaries which means, according to source, that they are both employed also by the UB.
