STRICT CHECKING OF AIRMEN GOING ABROAD

SOURCE STOCKHOLM: Confidential source.

DATE OF OBSERVATION: Beginning of 1956.

EVALUATION COMMENT: None.

+ + +

As from January 1 1956, the control of LOT personnel going abroad has become a good deal stricter than it used to be. Formerly, the crews were hardly examined, the check was merely formal and very sporadic, but now they are thoroughly searched every time they are going to or returning from abroad.
