Sabotage at the Steagul Rosu Workshops

SOURCE ROME: From recently arrived refugee.

DATE OF OBSERVATION: 22 October 1951

\*\*\*

In the assembly hall of the Steagul Rosu works, a very large plant for the production of machinetools in the city of STALIN (BRASOV), a travelling crane was sabotaged and rendered useless on 22 October 1951. The "reactionaries" are accused of being responsible for this outrage and 13 men were arrested, among them the heads of some departments and the technical heads of the factory.
