ON MONDAY NIGHT, OCTOBER 20, THE CZECHOSLOVAK BD BEGAN A SATURATION PROGRAM IN THE LAST HOUR BEFORE THEIR SIGN OFF. THIS ADDED 14 MORE SHORT-WAVE TRANSMITTERS FROM OTHER LANGUAGES FOLLOWING THEIR RESPECTIVE SIGN-OFFS. THE MONITORS WERE NOT LONG IN FINDING THIS OUT AND SOON ALMOST ALL FREQUENCIES WERE OCCUPIED BY JAMMERS. SINCE THEN ALL THE FREQUENCIES CONTINUE TO BE JAMMED WITH THE LEAST APPARENT EFFECT ON THE TWO HIGHEST FREQUENCIES, 15115 AND 15355 KC, AND THE 4 MC FREQUENCIES. BUT BY THE END OF THE FIRST WEEK JAMMERS APPEARED ON ALL THREE 4 MC CHANNELS. THESE OBSERVATIONS WERE MADE IN MUNICH. HEREAFTER WE WILL BE MONITORING THE SATURATION PROGRAM IN BERLIN AND VIENNA AND WILL HAVE A BETTER IDEA HOW EFFECTIVE THE JAMMING IS NEARER THE TARGET.

END MSG
