BULGARIA

COMMUNICATIONS  
Radio

It was recently announced by the Bulgarian Ministry of Post and Telegraph that all owners of Radio sets, in factories, schools, hospitals, military barracks, political, youth and trade union organizations, have to register them before 10 August 1951. All details about the sets should be given, "in order to ensure that these registered radio sets may get spare parts when required".

It is said in Bulgaria that probably only registered sets will be given wireless licenses, and that the regulations are aimed at eliminating listening to foreign broadcasts.

DATE OF OBSERVATION:

July 1951

EVAL. COMMENT:

Source: fairly reliable  
Information: no information.
