This morning, the Hungarian people heard with consternation and indignation of the decision of the Security Council, which does not recommend the admission of the nations, among them our homeland, which asked to be admitted to the United Nations Organization. Who is responsible for this ? It is the USA government which cherishes unpatriotic and anti-peace elements like CHANG-KAI-SHEK and Bela VARGA, who, as we have already mentioned in an earlier commentary, does not represent anyone, least of all the Hungarian people, yet protested, in the name of National Committee, against the admission of our country.

End.
