WILL THE STALINISTS RETURN?

The Communist Party in Hungary launched, according to well-informed sources, a move to prepare the return of a few not-too-gravely compromised Stalinists from the Soviet Union. According to information received, Party meetings are held throughout the whole country, at which the members are asked to approve the return of former Stalinists, among them the return of the former Minister for National Defence, Bata, and of a few other former Politbureau members.
